Dear Sylvia,

It is nighttime now...I spoke with you earlier today. Thought I'd tell you some of my thoughts re my work, "The House Select Committee On Assassinations Coverup".

As I mentioned earlier today, I have worked bloody hard and long these past few months, practically non-stop except for sleep and meals. I feel I have written a definitive, all inclusive total expose of the nefarious deceitful practices employed by the HSCA, and especially Blakey. The few at "Freedom" mag who have read it tell me it is historic. I immodestly agree. There are things made known to me by Fonzi that are, in a word, incredible. You have destroyed the Warren Commission. I have now destroyed the House Committee. I feel certain in my belief that you will agree with that assessment once having read the book. It is thoroughly documented. It is true. In addition to the contributions by Fonzi, Lane, both Spragues, my massive 2 year compilation of printed documents and info supplied to me on a regular basis during the tenure of the "investigation" accorded me the opportunity to delve into this project with information which was unavailable to no other long-time critic. Therefore, I feel that it is, and will remain, the definitive work on the subject. Now I know what a massive effort it was on your part to have written THE BIBLE on the W.C. fraud. My hours were long and lonely and too tiresome to bear, really. But I was driven with what you might call a special passion to continue and continue until it was done. Therefore, I must honestly say that I'm glad that it's over and accomplished now. I do not now believe that I could do it again. Once is quite enough.

As soon as the ten special copies of the book are made, I'll immediately send one to you post haste. Thank you for your, it seems like a million years ago, advice. I well imagine this book, when published in November, will cause quite a stir in all circles. So be it. It will be interesting to behold, personally. I've done what one could to expose this latest governmental fraud. I KNOW I've exposed it well indeed.

Best regards,
