Dear Sylvia,

It occurred to me recently that the simplest thing to do in connection with the jacket I left would be just to have it mailed. Enclosed is a stamped, self-addressed package that should hold it. Don't worry about folding it any way which will fit; I can get it pressed after it arrives. If you can mail it from your building, fine. If not, don't hurry but just throw it in a mailbox the next time you are outside doing something else. Don't take any trouble, as there is nothing urgent.

Enclosed are some items I thought might be of interest. I hope you are well.

Regards,

S. S.
