21st May, 1988

Dear Mrs. Meagher,

I apologise for not writing earlier and confirming our filming date with you. Since we spoke, I have been tracking around the States filming - today was our last day & we return to England now to recuperate after five months here.

If you are still free, we plan to come & film you on Sunday 12th June, in the afternoon. The interview will not take long, & we will spend time with you before we start, going through questions and allowing you the chance to say on screen what you want to say.

I will call you from England at the end of the month to make sure you are still happy with the arrangements.

With all best wishes from me & Nigel.

Yours sincerely,

Susan Winter.

I apologize for handwriting rather than typing but my machine has broken after 5 months of clattering keys non-stop!
