

30 April 1971

Mr. W. C. Thompson
158 Mebane
San Antonio 78223

Dear Mr. Thompson,

I was truly distressed to hear of your loss, and of your own illness. You are very courageous and resolute to carry on with your work on the case, despite such grave personal afflictions. You have all my admiration and sympathy.

You seem to be more up to date on the new books than I am. The only addition I can offer is the 1969 book The Garrison Case by Milton Braner, published by Clarkson N. Potter, New York, distributed by Crown Publishers.

My Subject Index is available again, as you will see from the enclosed "Notice". It will cost you less to get a copy from University Microfilms than postage, registration, and xeroxing, and I hope that you will find that a more convenient arrangement.

About your entry No. 263: This book was never published, and Jacob Cohen has not been heard from in any form, on this or any other subject, since about 1966-1967. Your Nos. 261 and 262 were never published, either, to the best of my knowledge.

With all my good wishes,

Yours sincerely,

Sylvia Meagher
