

Copy of letter 21 Sept 1971 to Rockefeller

Sir: If your mind is 60:40 in support of your brutal
massacre at Attica, it is perhaps because many of us
have been 2 stunned and 2 horrified. To write
others of us are 2 disgusted and disillusioned -
just to continue to see the indignities & outrage
that we feel, knowing your long reputation
that our views will be disregarded

Ken St - Jack St - Myra - In Q - Attica -
dearly, the single greatest threat to this country
is the crime & violence committed by
official authorities, with immunity for the
law & complicity at the highest levels of
power.

You bear the blood of 40 human beings on your
hands - a greater crime than any summit
of Attica must answer for. The fact that
you acted "in your legal rights"
proves only that justice is a trumpery
and a cruel hoax in this wicked
nation. I pray that you will be
punished for the 40 needless killings
that resulted from your cowardice,
arrogance, and inhumanity.
