November 19, 1971

Mr. Philip Nobile
Universal Press Syndicate
475 Fifth Avenue
New York, New York 10017

Dear Mr. Nobile:

I am writing you as a private citizen in reference to your excellent article on the JFK assassination which appeared in the November 18, 1971 issue of the Camden, N.J. Courier-Post, in the hope you can be of assistance.

I am a 41 year old chemical engineer who strongly agrees with the opinions of Mrs. Silvia Meagher. I have kept a rather incomplete file on articles published over the years but am eager to obtain additional information. It is my hope that in our lifetime, we and society may learn the truth about the JFK demise.

The specific information I seek is:

1. Where and how to obtain the publications of Mrs. Meagher referred to in your article.
2. The name, address or any information leading to the book published by "a very brilliant young man in the Philadelphia area" on the autopsy findings.
3. How to obtain the "technical monograph" written by Mr. Robert Cutler, the architect from the Boston area.

If you could put me in contact with Mrs. Meagher, or send a copy of this letter to her, or supply the answers I seek--- it would be greatly appreciated.

Very truly yours,

Mack D. Bowman
