Dear Ms. Meagher,

I am compiling a list of deaths related to the political assassinations, based largely on Penn Jones' 3-volume book, and chapter 16 of yours. This information will be published in the January edition of Computers & Automation, in which credit will of course be given the research which you and Penn have compiled.

There is some information which I have been unable to locate, however, and I have taken the liberty to itemize it below, in the hopes that you may now possess it and be willing to forward it to me.

Information needed about deaths:

Charles Batchelor - <sup>early 1970 of cancer</sup> date, location (Dallas?), length of illness, age.  
S. M. Holland - date in 1969, cause, location, age.

Information needed about deaths which you believe should be deleted, according to your letter to Ed Berkeley, dated March 27, 1970:

Crispin Curiel Gonzalez - what allegations were made re: H.F.K. assass.  
Buddy Walthers - date in 1969, did partner admit having fired.
