Dear Sylvia,

Enclosed you will find a full assortment of le Figaro's adventure with Mikhaïl Ratchianovitch Sagatelian.

There is first the document published on October 14th and which has also been reprinted on the following 20th of October in the best possible space of our weekly selection.

I also send you a telex copy of my first answer in 20 points, and then the automobile page of le Figaro of Thursday November 25th containing my second story.

Thus the whole file is where it belongs : the real "national" Archives of the Kennedy assassination,

Very cordially yours,

Léo Sauvage.
