

Telephone call from Marguerite Sunday night 11/6/66 (while Martin Petroff present)

She asked me to send her a copy of Ramparts...Lifton had promised to mail her some photographs but they never arrived...there has been another death-- a man named LEVENS, age 32-34, looks very much like LHO...found dead, face down on sofa, after 2 weeks, said to be natural causes (on 11/5/66)...he ran strip joint, used same girls as Carousel...on radio news (or TV) "Bob Sleeper" said Levens had been questioned extensively by the WC...but that was not in the newspapers ...

She thinks Arnoni is not sincere; in returning her article, he did not ask to see what else she had...everyone is making the mistake of ignoring her.

SS Mike Howard came to Fort Worth since February 1964; guarding Lynda Byrd; Charles Kunkel, sent to Fort Worth...she suspects he is having her phone bugged and placing her under surveillance when HHH in town. She has investigated him. He was personal guard at White House detail, came to Texas in summer 1963--sent him to Ft. Worth. Mike Howard sent to Washington after 11/23/63 while Kunkel sent to Fort Worth. Both still involved. Read her testimony, also that of Robt Marina James Martin Peter Gregory.

Story on page one Dallas Times-Herald about Mrs. Paine "after 3 years of sorrow" She is softening her tone on LHO guilt, patting herself on the back. Paines are NOT agents.

Long harangue about Shirley Martin...suspects her of being an agent...did not know her husband a pilot...she is a Republican! Says the partner of Shirley's husband was killed about a year ago. Thinks she was hired to infiltrate the group.

Something really big coming up soon for Marguerite; she is willing to go to jail, like Peabody's mother. Wants me to read "Crazy World of the Sixties" by Pierre Breton (the Lowell Thomas of Canada) includes an interview with her in which she says that the State Department wanted JFK out of the way. He paid her only \$50 for the interview; everyone gyps her.
