

HOUSE OF COMMONS
CANADA

OTTAWA, May 16th, 1967.

Mr. Gordon R. Pollard,
"Medicine Hat News",
MEDICINE HAT,
Alberta.

Dear Mr. Pollard:-

Thanks very much for your letter of
May 10th which I was delighted to receive.

I haven't seen the story about Gordon
Novel claiming that the C.I.A. had used the
American and Canadian radio stations to send
out code messages to C.I.A. agents in connect-
ion with the Cuban invasion.

Almost every day fresh revelations are
made of the activities of the C.I.A., the
most recent being their part in the military
coup d'état in Greece. It would appear that
the C.I.A. is becoming a government within the
U.S. government and that it works entirely on
its own without any reference to policies of
the State Department or the President.

I shall be glad to find out if possible
whether or not coded messages were sent out
over Canadian radio stations and what action
the Board of Broadcast Governors is prepared
to take to prevent this abuse of Canadian
broadcasting. If you could send me a copy of
the statement by Gordon Novel with the date on
which it appeared in the New Orleans paper it
would greatly facilitate my enquiries.

Thank you again for bringing this matter
to my attention and kindest personal regards.

Yours sincerely,

T. C. Douglas
