

Dear Sylvia

July 1

I know I'm a rat funk and a double barreled bastard for not writing sooner — Time somehow collapses & I can't believe its 2 months and a m. E. crisis since I received your very nice letter — We enjoyed & used your S.C. report — & very grateful all your help. Yrs. R.L.C. doing great from this end — all raves from top on down — Same for you & Vera from L. Bernard on his return — Old hat to me but nice to hear that he appreciates you both & I herewith pass it on.

We PROUD of you — quote you constantly — & even hint we know the authority in the field to squelch an argument — now revived after NBC reports (or CBS — ?) which must be sick sick establishment with CIA money.

We all well — Susan here for past week — lovely girl — now 14 — U. of Chicago — a little intense & serious — but very nice — You'll love William — everyone does — B. in good form but suffering from visitoritis — she's a love-o — needs Miracy — never gets it.

Bea H. not been well - nothing serious -
 but has been away 3 weeks (crucial for me)
 + Jim alone doing every thing - "doing" badly the
 word - lucky to keep up - must do analysis -
 anyway shall be back next week in time
 for 8 case but the prep work - oy! oy!
