Dear Miss Goddard,

I was glad that you were able to drop by and that we had a chance to talk. Students of the case who have not had work published have a great deal to contribute, sometimes more than the known "critics." There is no question of "presumptuous ways," on the contrary--~~of the contrary,~~ discussion is always healthy and helpful.

Do hold on to the CBS transcripts, I am quite certain that I won't need them. I discovered on Sunday that I had still another set which is "extra"...and perhaps the set you have will be useful to you, so please consider it yours.

With friendly good wishes,

Yours sincerely,
