Dear Marc,

I have not written to you earlier because of a death in my family. Nothing less would have prevented me from indicating my complete support and admiration as soon as I learned the news of the indictment of yourself and your colleagues for "conspiracy." Conspiracy! If these question were not so grim, it would be sheer comedy to contemplate the kinds of "conspirators" pursued by the Government, and the kind who may operate with immunity, if not high honor.

That some men--you, Dr. Spohn, Reverend Coffin, and your other associates--have acted with such courage and conscience, in disregard for personal risk, must inspire the conscience of others.

Please call on me if there is any help I can give.

With respect and gratitude,

Sylvia Meagher
