

10 July 1968

Dear Sylvia,

Office chit-chat: Vera was in yesterday and looked great. Said the baby was sleeping better and so was she. Dr. Newell and Mr. Bierstein are "floating" around the office. Joan is back today and looks very tanned and healthy. Dr. C. is also here, after his fishing expedition. I think he's leaving the latter part of the week.

Thanks for your little notes - I like them. I also miss you - your office seems so deserted.

When are you going away - and where?

Love,

*Ruth Mecklenburg*
