Dear Bill,

It was good to hear from you when you were in New York recently. A copy of Invisible Witness arrived Saturday, thanks to Bob Ockene, and I have been reading it with real fascination--much of the material is quite new to me, and the book is eminently readable. There really isn't a dull passage in it! I was especially interested in the Identi-Kit and Imagemaker techniques and, of course, in your comments on Oswald and the Warren Report. You had told me, when we first met, about the Guinn/Pinker tests, and I am glad this information is now on the record since, as you say, the results provide additional grounds for Oswald's exculpation.

Warm congratulations, and all good wishes for the success of the book,

Sincerely yours,

Sylvia Neagher
