Dear Miss Meagher -

I have read all the books on President Kennedy's assassination and have found yours to be the most complete and honest - except for one statement you made. I am sure that other readers have written and asked you the question I am about to ask - and am quite sure you have a good reply. I hope you can answer my little book and tell me: Why did you not get behind District Attorney Garrison and support his investigation?

That is my only question of you, and my only criticism of your excellent book. It astounded me to read your comments on Garrison

and so I do hope you could answer with just a brief note and tell me if you now have changed your mind, in light of recent events, or if you still are skeptical of his case.

Thank you very much -

Sincerely yours,  
in admiration -

Miss Alison Murray
