Dear Mrs. Meagher -

At long last here is a copy of the titles I have relating to Pres. Kennedy's assassination. It's not complete, as I add new things all the time - and the list is a very sketchy one. If I ever found anyone that wanted to publish it, I'd re-do it with more details on each item, naturally.

Have you anything further in the works?

Right now I'm doing a series of articles on bookstores for "Publishers' Weekly" (a book trade publication) - but still haven't given up interest in the Assassination.

Incidentally, I bought the complete Warner Report - and now would like to have a copy of your "Subject Guide".

Can you suggest any place that I could get this?

(I suppose a Xerox copy would be too expensive.) Anyway,

I also need a copy for my collection and to list in any future bibliography. So any help you could give me will be much appreciated!

Thanks for mentioning my name to David Lifton of
Dightext Publications. The book looks interesting - but not
at \$17.50! I don't feel that it contributes anything basic
to the picture - but if it ever becomes available at a lower
price, I'll get it.

I've heard from Joachim Joesten in Germany. He has a
new book out: "The Dark Side of LBJ" - in which he
blames Johnson for Kennedy's death. It's published in England,
but he has much mimeographed material at fancy prices
that no publisher will touch. What do you know about him?
I talked to his wife and she seems nice enough...

There is much excellent material available on microfilm
but not having a projector I haven't gotten it. And projectors
are terribly expensive.

I'm still hoping to get a copy of the Zapruder film. If
you hear of this, please let me know. Also, if a screening
of it should come along, I'd love to see it!

Hoping that you have a pleasant holiday season,

I am

Sincerely -

P.S. Joesten sent me a duplicate listing so I'm including it too, in case you don't have it...
