Dear Mrs. Meagher:

I am engaged in an effort to obtain information concerning Fred Lee Crisman of Tacoma, Washington. As you are probably aware, he was subpoenaed by Jim Garrison to appear in New Orleans during the JFK assassination investigations.

I represent a small group of civilian investigators who are trying to ascertain Crisman involvement and determine his present activities.

I would very much appreciate any information you might have on Crisman. I would very much appreciate the opportunity of corresponding with you on the Crisman matter.

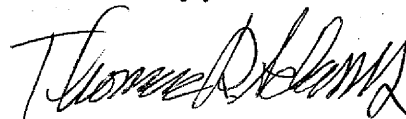

Is it true that you have a rather extensive collection of literature on the Unidentified flying object phenomenon? I have a great interest in this myself. In fact, I have worked this summer on UFO investigations in Colorado with Dr. J. Allen Hynek and Dr. R. Leo Sprinkle.

If you are familiar with UFO literature, you must be aware of further activities of Fred Lee Crisman. My interest is in establishing whatever relationships may exist between Crisman, UFO's, and political assassinations.

I obtained your address from Bud Fensterwald, with whom I have recently established contact. I have also corresponded with Penn Jones on the Crisman matter.

I will appreciate your time any any information you might be able to give me. And I shall look forward to hearing from you.

Sincerely,

Thomas R. Adams
