Dear Sylvia

Nursing a cold in order not to jeopardize our planned trip to Guadalajara and surrounding joints - Dec. 23 - Jan 4. It may be we'll find a place to live.

Dashed off & reworked reply to Hoch. Would you type it, please, with one copy for reproduction when I get back? If you wouldn't mind forwarding it to Hoch? You can sign my name. What do you think of piece and plan?

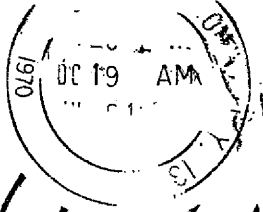

Also when I get back I hope to meet +

a painter named Peltin who teaches painting and for whose class Karen (our daughter) modeled a night or two ago. Karen told me over the telephone Peltin worked for G2 and had or has, probably had, access to material not available to us. If she reports him correctly his views on the assassination coincide with some of ours; Oswald was framed; the motivation was Kennedy's overall policy of deescalating the cold war, and so on. A remarkable painter, no?

Have a healthy holiday and we'll meet after our return

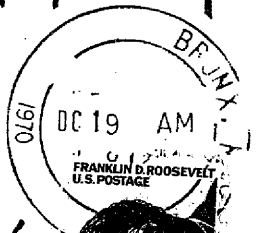

Yours,
/s/
