

# Ramparts

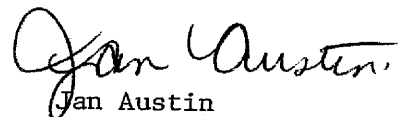

June 6, 1968

Dear Mrs Meagher,

Mr. Bensky has asked me to send you this latest issue of Ramparts, containing William Turner's article on the King and Kennedy assassinations. The article points to some striking similarities in both the details and the handling of the two cases and calls for the creation of a citizens' investigative committee.

The events of the last few days have underscored the need for such a committee. We will be in touch with you very soon with more detailed information about the commission.

Sincerely,

  
Jan Austin
