31 December 1968

*Received 5/7/69 (as is)*

Dear Mr. Agel,

I prepared the enclosed book review for publication in The Minority of One, which to my sorrow has abruptly suspended publication because of financial problems. I wonder if it would be of any interest to Books? I am concerned that the public should be aware of the availability of the Document Addendum to the Warren Report, which has had no publicity of any kind, because of the contemporary and historical importance of the Warren Commission's private deliberations, during its executive sessions. The declassified Minutes throw considerable light on the Commission's preoccupations and the quality of its investigation.

If you cannot use the review, can you suggest other possibilities?

Gratefully yours,

*Sylvia Meagher*

Dear Mr. Agel,

I prepared the enclosed book review for publication in The Minority of One, which to my sorrow has abruptly suspended publication because of financial problems. I wonder if it would be of any interest to Books? I am concerned that the public should be aware of the availability of the Document Appendix to the Warren Report, which has had no publicity of any kind, because of the contemporary and historical importance of the Warren Commission's private deliberations, during its executive sessions. The declassified Minutes throw considerable light on the Commission's preoccupations and the quality of its investigation.

If you cannot use the review, can you suggest other possibilities?

Gratefully yours,

Sylvia Meagher
