

Telephone call from Tink Thompson, Saturday night, 8 pm, 8/19/67

Received my letter with list of 70 additional witnesses, incorporated footnote suggested, almost verbatim...received galleys of Chapters 1 to 7 yesterday, upset at 10 days lost, will pressure Geis on grounds large financial loss if book is not out at same time as Accessories (which means delay to January 1968)...Had dinner at Vince's with Sprague, very disorganized and much traffic, was kind of waste of time ...General impression of results New Orleans visit much as I described. Vince read him my letter to CBS after refusal to give rifle test results, found it hilarious...Will be in NYC Monday, for the day...will deliver galleys to my office.
