Dear Sylvia:

I am looking forward to the publication of your book on November 30.

It ought to, by now, be in published form; and, if I could have a copy, I could then prepare a review for the Villager. I would be glad to do it for the Village Voice, but they don't usually publish my material.

I believe that Professor Thompson's book will include copies of my correspondence on making the x-rays and photographs available.

I read the WHO report on complaints about the trust territory, and the part that impressed me most was the fact that it was a United States employee who complained to WHO rather than to our Government.

I hope all goes well with you.

Sincerely yours,

Theodore R. Kupferman, M. C.
