Mrs. Sylvia Mayer,
302 West 12th Street,
New York, New York 10014

Dear Mrs. Mayer:

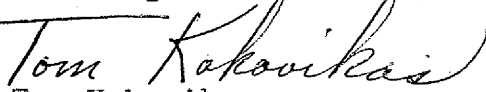

Heard you on the Jack McKinny WCAU radio program early this morning and found your facts most startling. We know that the Warren Commission did a rush job on the assassination fact finding, if one can call it fact finding. Therefore it seems to me that you brought up many fine points which this commission overlooked. Thank you for again bringing my interest again to this subject, which I felt was never truly settled correctly.

- (1)-In regards to Jack Ruby. Did you ever find in the 27 volumes the testimony of Ruby's brother Hyman Rubenstein? I've heard that he testified that his brother Jack had lots of friends in Havana and that he often flew down to pay them a visit. This struck me as rather odd for we know that Castro must regard all Americans not of his Communist party as offensive. Was this point ever pursued and do you know what the FBI had to say on the subject.
- (2)-Do you also know if a Mrs. Thelma Marks of Gary, Indiana was ever called to testify before the Warren Commission? I read shortly after the investigation was taking place that this lady had some important statements to give...yet in the 888 page Warren Report I find not even a ~~/~~ mention of her. Is she noted in the 27 volume report?
- (3)-In the 27 volume report is it ever noted what the contents of the letters sent from the Alexander Ziger family contained; those letters being sent to the Oswalds when they were in the U.S. again (Lee H. Oswald and his Russian wife)? And does it ever note what became of little Roza Kuznetsova, the Intourist guide, who aided Oswald?
- (4)-And most important of all, and I find no one who can answer me this, : Did anyone of authority check the fingerprints taken from the murdered Oswald after the Ruby hit and compared those prints to the Oswald prints kept in his Marine Corp file ?

I make no speculations but hope that at least these few minor facts inquiry are contained in the Warren Commissions 27 volume and you can relay them to me. I'm with you 100% that Bantam books should print up these volumes for the American public.

Again thank you for again renewing my interest in this case, as in the past two weeks since I last heard the case seems to be getting nowhere. We should bring this out into the light so to show the lengths that Communists will go to cover a conspiracy.

Best regards. Sincerely,

Tom Kokovikas
921 1/2 - 7th Avenue, East,
Alexandria, Minnesota 56308

Enclosed self addressed envelope for your considered answering reply. Thank you.
