New York City,

Dear Miss Marr,

I listened last night to the Radio presentation which discussed the evidence which has been brought forth due to the investigation of the facts which the Warren Committee report attempted to establish.

I want to Congratulate You on Your Clear discussion. You have a Good voice, speak with Confidence and Your Command of the English language is par-excellent.

I have always wondered why the Warren Committee was ever appointed. I think President Johnsons first official act.

The F.B.I. put out an extensive report. Five volumes I believe.

if a special investigation was needed  
--- of all people why Earl Warren.

As Chief Justice of the Supreme Court  
he never should have been a part of  
such an investigation.

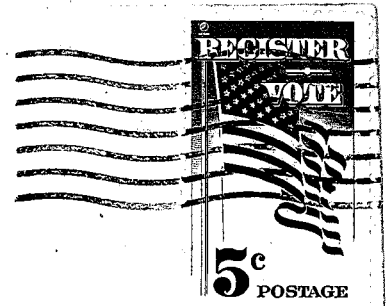

If Lee Harvey Oswald was not involved  
why did he evade police by going into  
the Theatre?

How was he shot so easily by Jack  
Ruby when he was surrounded (look  
at the pictures) by Deputies?

If one adds up the evidence, all of it  
one can only conclude that there  
was a planned effort to destroy  
evidence and witnesses who might  
have helped un-ravel the mystery.

We may never know the truth.  
God knows and vengeance belongeth  
to God.

In the meantime keep going on  
your effort to see that justice is  
done. Sincerely yours, Margaret A. Couch  
In the Cause of America. (Mrs Dean)
