Report."**

Louis Nizer, world-famous attorney and author of the analysis and commentary in "The Official Warren Commission Report," feels strongly that "The insinuations that Oswald was framed, and that there was a conspiracy involving our government and its agencies, have besmirched our country's reputation throughout the world."

"It is time," says Mr. Nizer, "we speak up in defense of the Warren Commission Report."

Tonight he does, joined by Warren Commission assistant counsel Albert E. Jenner Jr. and staff member Alfreda Scobey on WNEW-TV's second important program on the Commission's findings. Appearing in opposition: Mark Lane; moderator: David Schoenbrun.
