Dear Bud,

Thankyou for your letter of 30th September and the material enclosed with it.

Bud, I am over my head with UN General Assembly work. As you may know, my health has not been very good this year and I am under strict doctor's dorders to keep away from overtime or extracurricular work. I do admire the scope and imaginativeness of your Project Penultimate and therefore regret all the more that I am not able to be a participant.

As you may already have heard, Accessories will be published in paperback by Random House-Vintage Books, target date February 1976.

Best personal regards,

Sincerely yours,

Sylvia Meagher
