NYC (16)

Dear Editor,

In your brief discussion of the CBS interview of ex-FBI-man Wm. Walter, re some foreknowledge of J.F.K.'s assassin, it isn't clear whether you have forgotten or chose to ignore that Jean Dixon and several other people made determined efforts to warn the F.B.I. America has thousands of genuine psychics, and several hundred are known to have foreseen the shooting. One even picketed the White House all day with a sign, warning J.F.K.

The F.B.I. actually did take some heed, + increased their precautions, or helped the O.S.S. to. But 10% added effort came to naught, because the plot was a professional job + the gunman had the vast resources of the KKK/D of Russia behind them, plus a select set of Texas gunmen who never were told it was the Reds they were working for (whom they detested even more than the nigger-loving damn Yankee).

If you know of anyone who's seriously interested in seeing the plot uncovered + the murder gang sentenced in absentia, and is also responsibly aware of the magnitude + extent of the repercussions to which involve, let them know that I can pinpoint the key man in the whole plot, a wealthy internationalist, long-time hater of J.F.K. and his pa, who let the Reds coax (or dupe?) him into the key role that so completely covered the Kremlin's main instigation that not only the gunman never suspected it but neither have any of the American amateur researchers, + perhaps not the C.I.A. itself (we think it was Castro, apparently)

The C.I.A. apparently had F.B.I. agreement, + possibly aid, in its campaign of silencing all who 'knew too much' (forever), + the same count of 40 or 50 such subplots I believe it was only 10-20. Officialdom

V²² always hates + fears the amateur, layman, unwitted meddler + wd be usurper of its privilege of law enforcement. And when an agency like + C.I.A. has bungled grossly, it sees such meddlers as a threat to its existence, + reacts like a wild animal at bay, absolutely without scruple.

Within a few hrs. they knew Oswald was not one of the killers, + knew tht a gang had escaped to Mexico in a plane tht had bn waiting on the airport (or an airfield) outside Dallas. See there was no hope amateurs wd get emp info to bring th man to justice it is easy to see however th more scrupulous C.I.A. officials wd agree th public must be convinced Oswald was the culprit, + anyone definitely a threat to th effort must be eliminated.

This is how bureaucracy works. The scientific community hates + ruthlessly destroys amateur discoveries. The medical profession hates + destroys the naturopaths' superior proposals. Church hierarchy hates + wd destroy th lay mystics revelations, th usually nullify their claimed importance. Bureaucracy becomes autocracy because its membership become fond of th security of their positns.

A close friend of mine narrowly escaped to suborn, and immediately dropped his investigator. Mr. Big Hate was hot on his track, even came front to Caribbean to NY/C + grilled his girl-friend 4 hrs. My friend's identity wd not be revealed by me, even to th afore-specified responsible investigator. But I believe he wd permit interview, shielded by curtain, perhaps even tape-recorded. We have other more sensational facts on th subject, too.
Yours for th truth. C. J. G. K.
