February 4, 1969

Dear Ms. Meagher,

I am very flattered that you saw fit to order a set of the Oswald slides. First, I wish to say that I found your book, Accessories After the Fact, to be the finest of all of the many dealing with this subject.

Your comments and research, re: 133A and 133B were especially valuable to me, as your analysis of the body to gun proportion checked with my findings, when I overlaid the two bodies.

I found many other things of interest in these two pictures that I did not include in the slides, i.e. shoes don't match, shirts probably don't match and the fact that another person was viewing the whole proceedings. These things, I felt, were not clear enough to demonstrate, so I left them out.

If you wish <sup>COPIES</sup> a copy of my two articles in the Probe, I will be happy to send them to you.

Sincerely,

FRED T. NEWCOMB
