July 9, 1969

Dear Sylvia,

I would appreciate it very much if, when you can find the time, you could look over the enclosed material and give me your opinion.

Is it worth pursuing, or do you have material that would cause me to abandon this? Can you help by adding anything to this? Because if you can, I would value your opinion very much.

I got started with this when I was reading Jackson's testimony in Volume 2 page 164 and one thing lead to another. If this works out it could be significant, and I'm sure you know what one more shot and one more wounded would do.

Thompson (SIX SECONDS IN DALLAS) also mentions that the Fuller stretcher or cart is mixed up with Exhibit 399.

I hope this mess is in an understandable form and that I'm not confusing you.

Sincerely,

FRED T. NEWCOMB

P.S. Please return the photos when you are finished - and if you wish to copy anything, go ahead.

Can't find my Art Rickerby knoll photo or I would send it along.
