

20 June 1970

Dear Fred,

Unfortunately, I have no information at all on the presidential car beyond what is in the 26 volumes. I believe that CD 3, the Secret Service over-all report, includes fairly detailed accounts of the search of the car at the White House garage on 11/22-23/63 and the recovery of the fragments. I don't have CD 3 but somewhere along the line I seem to have acquired a distinct recollection that it does include that kind of information.

I suggest that you canvass the other critics, who may have taken a greater interest than I did in the remodeling of the car and related questions. At the risk of being cryptic, let me add that any researcher who has devoted time and effort to delving into this aspect of the case may not necessarily be willing to share the results with others.

Sorry that I cannot be helpful on this, especially when you have been generous enough to keep me informed of the Charach suit and other developments. I will keep in mind your interest in the car and if I should run across any relevant material I will let you know.

Best regards,

Sincerely,
