Dear Sylvia,

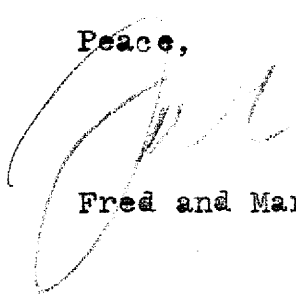

Sorry to hear you are still depressed -- but I suppose this "case" will get anybody down after staying with it as long as you have.

Naturally Perry and I were disappointed to hear you could not give us a detailed comment on our m.s. We were, however, encouraged to see that you felt our work was effectively argued, beautifully written and well documented.

I was greatly interested when you told me on the telephone that you had heard about this concept from David Lifton. David had spent a great deal of time trying to shoot this theory down. Out of ~~xxx~~ curiosity - when did you first hear about this theory from David - and his concept of the theory.

Please get well and answer this only when time and health allows...

Peace,

Fred and Marlynn
