DEPARTMENT OF PATHOLOGY AND ONCOLOGY

January 5, 1968

Mrs. Sylvia Meagher
302 West 12 Street
New York, N. Y. 10014

Dear Mrs. Meagher:

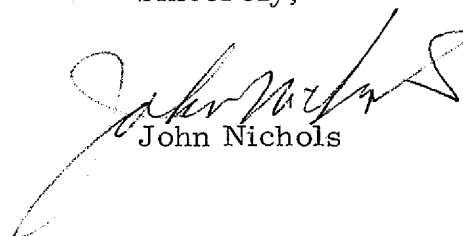

Please allow me to thank you for your letter of January 3 with supplement for your index. This is indeed generous of you. In Kansas there appears to be only one copy of your index. This is at our parent university library thirty miles west in Lawrence. They object to loaning me the index for the prolonged periods I want it; this is why a Xerox copy was made.

The magnitude of your book "Accessories after the Fact" staggers me and I confess to not having read all of it but as you may surmise have reread some parts 2 - 3 times.

Presume you learned of my experiments from some one in Mr. Jim Garrison's office. Have shot amputated limbs (wrists) in the manner of Governor Connally's wounds and all of the recovered bullets are mutilated. They are not pristine like CE 399. Also from some hitherto unrecognized observations it is possible to show that President Kennedy's neck wound was not inflicted from Mr. Oswald's window in the T. S. B. D. Please do not advertise these items until I get an article published.

Enclosed is a reprint of the article from the JAMA about the late President's adrenals. Do hope my book will be one-third the size of yours.

Sincerely,

John Nichols

Encl.
