Dear Sylvia:

Enclosed is a reprint entitled "The Wounding of Governor John Connally of Texas November 22, 1963" from the current October issue of the Maryland State Medical Journal.

In it I document the fact that the fragment alleged to be in the Governor's left thigh is a fabrication. Is not most of the following on page 12 perjury and subrogation of perjury by Doctor Shires and his assistants together with officials of Parkland Hospital.

Many thanks for keeping quiet about this and advising me of Betty Beal's mention of it. The newspapers here avoid the perjury bit.

Many thanks,

  
John Nichols
