

17 February 1968

Dear Bill,

I should have done this long ago and saved you needless effort and expense. Better late...I have two tape recorders. One is a Norelco 3- $\frac{1}{4}$ single speed up to 7" reel. The other is a Craig two-speed which takes only the 3" reel. Sadly, then, the tape of the Beloved Hospess is the wrong speed for the Norelco, and the wrong diameter for the Craig. I apologize, Bill, for not having given you these specifications until now, and put you through a lot of trouble for nothing.

I am returning the tape herewith, together with a small check to cover the costs of tapes, postage, etc. Please let me know when it is used up and I will replenish.

This week has been quiet, by and large. There was a snide "review" of Accessories in the March Esquire, by Malcolm Muggeridge; and I think I sent you the Fred Graham review which is to appear in tomorrow's NY Times. It is, as anticipated, negative and nasty.

Many chores (household) to do, so I will close with much love and the hope that your grandmother is much improved,

As ever,
