

Friday evening
12/13/68

Dear Bill -

My letter to you re Pacifica + Mintz was purely with the thought that it might be useful to you, in the light of your account of the coup.

I was really not interested in transmitting my opinion to the Pacifica people or to Mintz — only in strengthening your position, if the letter could do so. Since that is not the case, please just file it away without another thought. There is no "rebuttal" involved whatsoever. (Except to myself, for not making myself clear in the first instance.)

I am sorry that the H.K. flu has reached you and I hope you are recovered or recovering. Last night I erupted with standard head cold symptoms but despite that seem not to have anything more exotic, as I feared.

Half my colleagues at UN are flu victims, so I will be lucky to escape entirely. Must return to the factory now, for a night meeting of the Gen. Assembly.

Do hope you are better, dear Bill.

Sylvia
