

On December 3, 1963, Confidential Informant Dallas T-8 advised he could identify his handwriting on an Initial Interstate Claim Form IB-1 dated July 22, 1963 in the name of LEE H. OSWALD. He stated he executed this form on July 22, 1963 while he was employed in the same capacity in the New Orleans Office of the Louisiana Division of Employment Security and is certain that the claimant in this case, LEE H. OSWALD, signed the form on the reverse side in his presence as is the usual procedure. He stated also that usually the signature of the claimant is checked against his signature on the original IB-1 form and he had no reason to believe he did not compare the signature on that date.

He said he did not recognize pictures of OSWALD he had seen on television in late November, 1963, in connection with the assassination of President JOHN F. KENNEDY as the same person he had contact with on July 22, 1963, and was unable on December 3, 1963, to identify a photograph of LEE H. OSWALD as the same person.
