**Oswald's Widow  
Expecting Child**

DALLAS (UPI) — Marina Oswald Porter is expecting a child next month by her second husband.

Her second husband, Kenneth Jess Porter, is an electronics technician who recently quit his job at the Texas Instruments plant north of Dallas.

Mrs. Porter's first husband,

Lee Harvey Oswald, was named by the Warren Commission as the assassin of President Kennedy and was himself killed.

After the Kennedy assassination, people sympathetic to Mrs. Porter gave her thousands of dollars. She has also received payments for stories about her life and Oswald's life and is estimated to have received \$100,000 from the various sources in the past two years.
