

"THE CONSPIRACY TO MURDER JOHN F. KENNEDY... THE CONSPIRACY TO FRAME LEE HARVEY OSWALD"

Penthouse Press Presents:

THE ASSASSINATION TAPES

by George O'Toole Former Chief, CIA Problems Analysis Branch

If any single book has the power to re-open the investigation into the murder of John F. Kennedy, this is the one to do it.

THE ASSASSINATION TAPES provide the first scientifically acceptable evidence to dispute almost every major conclusion of the Warren Commission Report. It confirms the hidden doubts and suspicions held by millions of people that the Kennedy assassination was the result of an outright conspiracy.

In 1970, intelligence experts developed the Psychological Stress Evaluator (PSE), an amazing machine that can listen to the human voice and help to determine whether one is lying or telling the truth. George O'Toole, a former CIA computer specialist, using one of these machines, set out to probe the events surrounding President Kennedy's death. He gathered most of the recordings made on radio

and television by major figures in the Dallas tragedy. In addition, he went to Texas under the guise of a magazine journalist and interviewed dozens of principals who had been involved.

When all this material was subjected to analysis with the PSE, and compared with the large number of unexplained events, a pattern of deception emerged which completely discredits the official version of the assassination.

This challenging book, the result of more than three years of serious investigation and study, tells it the way it happened. To know more of this incredible drama, you must read THE ASSASSINATION TAPES. It is as suspenseful and exciting as *The Day of the Jackal*, although it is based entirely on facts and incidents carefully evaluated.

Mr. O'Toole's book is a fascinating piece of detection and offers promise that the mystery of President Kennedy's death (and the coverup which followed) will yet be exposed. "

Norman Mailer

This book is front page news! Written with lucidity and power, George O'Toole's THE ASSASSINATION TAPES has taken investigative journalism to the brink of the 21st century. "

Donald Freed, author, EXECUTIVE ACTION

No doubt it will be a smashing best-seller. Comes on with all the excitement and stirring possibility of revelations which could be worldshaking. Read THE ASSASSINATION TAPES as soon as you can. "

Saturday Evening Post

This is not a book just for assassination buffs, but one that every concerned American should read and ponder. "

*Victor Marchetti, author,
THE CIA AND THE CULT OF INTELLIGENCE*

The tale is chilling, fascinating, but not surprising in light of (reasonable) pre-existing and post-Watergate doubts. "
