

Congressional Leaders -- Ted Kennedy Included -- Rally Behind the Cry: 'Give Us All the Facts'

The hydra-headed probe of Central Intelligence Agency involvement in the John Kennedy assassination contains so many obfuscations and distortions only an act of Congress might resolve the issue.

Three government investigatory agencies have launched new probes of CIA involvement in domestic and foreign assassinations and the American public has met the initial results with astonishment and disbelief.

Investigating CIA activity in assassination plots are the Rockefeller Commission and the House and Senate intelligence committees.

And broadly-supported legislation has been introduced in the House of Representatives to create a select committee to launch new investigations into the assassinations of President Kennedy, his brother Sen. Robert Kennedy, Nobel Peace winner Dr. Martin Luther King Jr. and the attempted assassination of Alabama Gov. George Wallace.

The legislation was introduced by Rep. Henry B. Gonzalez, a Texas Democrat who was in the motorcade with Kennedy when the President was killed. His resolution has already been endorsed by more than 50 congressmen.

BUT THE MAJOR KEY to whether a new and serious official investigation is made of the assassinations of the Kennedys is the Kennedy family itself.

Now, for the first time, Sen. Edward Kennedy, the last surviving son of the Kennedy political dynasty, has relaxed his position on whether he wants the old wounds opened.

Ted Kennedy says he wants a new governmental probe of the assassinations of his two brothers if new evidence is

coroner at Pittsburg, Penn., said the statements attributed to him in the Rockefeller Commission report were "reprehensible and an insult."

Wecht was the first layman to be allowed to examine the John Kennedy autopsy evidence in the National Archives. He concluded that the Warren Commission was wrong when it said two bullets from the rear struck and killed President Kennedy.

SEN. TED KENNEDY ... 'obviously it is painful for the family. But the first consideration ought to be on the basis of what new evidence is available.'

available.

"Obviously it is painful for the family," he said to a reporter at a tiny airport at Keene, N.H., recently. "But the first consideration ought to be on the basis of what new evidence is available."

The consideration for the Kennedy family was the major reason given by President Lyndon B. Johnson when he ordered the complete files of the Warren Commission investigation of the John Kennedy assassination sealed until the year 2039.

JACK RUBY GAVE AS his motive for killing accused John Kennedy assassin Lee Harvey Oswald that he wanted to spare Jacqueline Kennedy the trauma of a public trial.

Critics of the Warren Commission conclusions have flooded the investigating agencies with testimony contradicting the "lone assassin" conclusion.

One of the country's leading medical experts claims that the Rockefeller Commission, in its final report on the domestic operations of the CIA, changed and falsified his testimony.

The expert, Dr. Cyril Wecht, the county

THE ROCKEFELLER COMMISSION report indicated Dr. Wecht had changed his mind and quoted the coroner as saying "available evidence all points to the President being struck by two bullets coming from the rear, and that no support can be found for theories which postulate gunmen to the front or right front of the presidential car."

On the contrary, Wecht said he told the commission he still is convinced at least two gunmen were involved in the Kennedy assassination. He said he thinks one gunman fired a shot from the grassy knoll in Dealey Plaza in front of the limousine in which Kennedy was riding.

Numerous other private Kennedy death researchers, interviewed by TATTLER, have presented evidence to the Rockefeller Commission or to staff members of the House and Senate committees.

ONE SUCH RESEARCHER claims to have the details of what happened in Dealey Plaza during the noon hour on Nov. 22, 1963. He is Richard H. Popkin, professor of philosophy at Washington University in St. Louis and author of "The Second Oswald," Popkin is considered among the most respected and academic of the assassination researchers.

Popkin notified government officials that he has a document naming the actual killers of President Kennedy and how the death conspiracy was arranged by the Central Intelligence Agency.

Popkin told TATTLER he has 3,000 pages of documents to support his findings.

More evidence that the Warren Commission's "lone assassin" conclusion was a cover-up was reported recently in the Chicago Tribune, a fortress of conservative journalism.

REP. HENRY B. GONZALEZ

... he introduced legislation which has been endorsed by 50 congressmen. Gonzalez said: 'What we need to know more than anything else is why they (the assassinations of JFK, his brother Robert and Martin Luther King) happened, and how we can prevent such events from happening again.'
