ADELAIDE DE GROOT, 91

Services will be held Monday at 2 p.m. in St. Thomas Episcopal Church, Fifth Av. and 53d St., for Adelaide Milton de Groot, philanthropist and collector of modern paintings. She died yesterday after a long illness. She was 91 and lived at the Hotel Windsor, 100 W. 58th St.

Many of Miss de Groot's paintings from the 19th and 20th Centuries have been on loan for several years at the Metropolitan Museum of Art.

DR. BENJAMIN A. FURMAN, 83

Dr. Benjamin A. Furman, of East Orange, N. J., died yesterday in Newark's Presbyterian

Hospital. He was 83.

Dr. Furman practiced in Newark for more than half a century before retiring five years ago. He was a fellow of the American College of Surgeons and a member of the Urological Assn. and the Sons of the American Revolution.

EMANUEL LIST, 79

Emanuel List, once a foremost basso with the Metropolitan Opera here died in Vienna Wednesday, it was reported today. He was 79.

The Vienna-born singer was with the Metropolitan from 1933 to 1947. A sister-in-law, Mrs. Leopold Kavalier of Forest Hills, Queens, was informed of the death by List's widow, the former Hansi Frank with whom the singer retired to Vienna about 15 years ago.

LEON TERRY, 80

Services will be held tomorrow at Park West Memorial for Leon Terry, founder of Newark Preparatory School, Newark, N.J. He died at his home at 150 West End Av. Thursday at the age of 80.

His wife and two daughters survive.

AL BUCK, 64

Services will be held Monday at 1 p.m. at Frank E. Campbell's, Madison Av. and 81st St., for Al Buck, veteran New York Post sportswriter. He died of cancer Thursday at the age of 64. Burial will be in Woolwich, Me.

FRANK EDWARDS, 59

Pioneer broadcaster Frank Edwards died in his Indianapolis home yesterday at the age of 59.

Besides a career as a commentator since the early days of radio, Edwards wrote six books, most of them on Unidentified Flying Objects. The most well-known is "Flying Saucers—Serious Business." "Were We

After about five days, the larvae pupate. The pupae hatch into adult fleas in seven to 14 days. As with ticks, high heat and humidity speed up these processes.

You will have difficulty in ridding a home of a flea infestation unless you remember the flea's life cycle.

The powder will kill fleas already on the pet. An aerosol flea spray will kill larvae, but probably not the eggs or pupae. So repeat room treatments are required.

Treat each room separately. Fleas climb up walls and chair legs, the better to hop on dogs, but they seldom go beyond 18 inches. So do not spray higher unless into a chair in which the dog sleeps.

Repeat the treatment three times a week apart during hot summer weather. Intervals of

Controlled?
