Sarasota, Fla. a few days ago -

Source not indicated. Undoubtedly  
a Fla paper, "Herald" some thing  
judging by reverse side of clipping.

I read it as part of continuing effort by  
right to attribute assass. to a communist  
source, orig. aim of assass. Johnson  
policy frustrated this by denuding assass of  
political source & significance. W.C.  
as agency of policy could not establish political  
source. Hence left motivation open, giving  
right opportunity to plug away. Hence also need  
to continue research & exposure.
