Dear Mr Welsh,

After reflection, I have decided to send you my manuscript in its entirety (as of now; I am still writing). I am sending it primarily for your information, as it suggests the nature and extent of misrepresentation in the Report.

The strong chapters are "Where Did the Shots Come From?", "The Sixth Floor at Noon," "The Short Bulky Package," "The 'Escape'," "The Rifle," "Hidell," "Photograph of Oswald with Rifle," "FBI Agent Hosty...", "Tippit's Movements," "Discovery of the Killer's Jacket," "Ruby at Parkland," and "The Attack on General Walker." The section on the autopsy and medical findings is strong also, but it covers much the same ground as Vincent Salandria's article in LIBERATION.

If you feel that any of these chapters are suitable as individual articles, we might explore the possibilities.

The enclosed manuscript is one of two copies, which leaves me with the master copy and one carbon. You will understand how much value it has for me, and that I should like to have it back ultimately. But do feel free to take the time to read it as carefully as you like. I am afraid that the style is not lively and the material does require considerable concentration by the reader.

I shall look forward to hearing from you again.

Yours sincerely,

Sylvia Meagher
