Dear Mr Welsh,

Thanks very much for your note of January 31, 1966. I fully concur with your closing salutation.

I am glad the manuscript arrived safely and will look forward to hearing from you again.

Meanwhile, I am enclosing a new section, to go into "No Conspiracy?"; also, a revised page to go into "The Auto Demonstration" and a new page to go into "Where Did the Shots Come From?"

Also, while going through my notes yesterday, I ran into something I had forgotten completely, an idea I was fooling around with about six months ago, as an article. I put it aside because something more important came up at the time; but just in case it is of any interest to you, here is a copy of the draft ("Capsules").

Best regards.

Yours sincerely,
