Dear Dave,

The Tippit chapter returned safe and sound, thanks. Here is the transcript of the tape I mentioned, in which Dr. Wecht made a forthright attack on the JFK autopsy. It is a terrible tape --someone seems to have plugged in an electric shaver while it was being recorded--but the parts that were audible are quite valuable.

Dave, can you please xerox about six copies for me? I didn't bother with carbons. If not, copy it for yourself and return the original, and I will get it copied here.

Hastily yours,
