

17 May 1969

Dear George,

You mentioned in your letter of 4/26/69 that your friend Larry is UFO officer at an AF base. It occurs to me that I should try to put him in touch with my close personal friend, Isabel Davis, who works at NICAP in Washington. Perhaps Larry is already in contact with NICAP or another group of the same kind, or perhaps he would prefer not to establish any contact.

Miss Davis has been one of my most valued and intimate friends for more than ten years. She is completely rational on the subject of UFOs, and completely trustworthy. If Larry would like to set up contact with her personally rather than with NICAP through her, I will provide her home address.

I suggest this because I think it is very desirable and important for civilian researchers and scientists to have access to Air Force sightings, which are often unknown to outsiders, and to sightings which are reported (if at all) only in the local press and do not come to the attention of groups like NICAP. The government policy on UFOs is, self-evidently, the same as its policy of WRs and lone kook assassins. No conspiracies; no UFOs.

By the way, are you aware of the photographic research being done by Fred Newcomb on the Dealey Plaza films and photos, etc? I mention this apropos of your plan for a clearinghouse for researchers.

Nothing much is new these days on the WR and related questions. I took some pleasure from the thunderous downfall of Abe Fortas, who helped organize the Warren Commission, even though the \$20,000 is probably one of his lesser evil works. Did you ever get a reply from Fensterwald on his plagiarism of your clearinghouse plan?

Best regards,

Yours sincerely,
