Dear Mrs. Meagher:

Please forgive this intrusion, but I would like to request two favors of you.

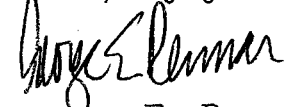

First, I would like to know how I could obtain a copy of your index. I have been unable to ascertain from anyone around here whether, or where, it might be available.

Second, I would greatly appreciate something from you on your opposition to Garrison, for publication in the Washington C.C.I. newsletter. Most of us around here are at least cautiously favorable, and I confess to being inclined to believe that Garrison may very well have solved the mystery. Since you are a leading Commission critic, you are free of the special pleading one expects from the press, and something from you on Garrison might help put the topic in perspective.

If you agree, feel free to be as brief or elaborate as you wish.

Thank you for your trouble.

Sincerely yours,

George E. Rennar
