Mr. Dave Dellinger
Liberation
5 Beekman Street
New York 38, N.Y.

Dear Dave:

Your letter pleased us much. We have designated June 5th as Dellinger day here. If Patch approves, we plan to have you join us for the day and sleep over with your family. I am eager to show off Livy's cooking.

The article? Well, I have not been able to sit down to it. I have several ideas on material that has not been discussed in the literature to date. But the researchers are all biding their time until the Epstein book is issued by Viking Press. If I do write any articles, Arnoni will be entitled to a crack at them. I don't really think that your board is going to be much interested in the rambling excursions into minutiae which pass for a Salandria "article." We will talk further on this matter.

You ask about a review of Harold Weissberg's book. I have not read. This week I saw it at Arnoni's home. Arnoni is not going to review it. If you want to pass it onto me, I will make a judgment for you concerning whether it deserves reviewing.

A book which certainly will require reviewing and will get it is Ed Epstein's work due about June 1. Arnoni has invited me to do the review. Dave, this book will make a big difference in the assassination picture. You will find that the book will be widely reviewed. I have a person who will be able to write the best review. Miss Sylvia Meagher of 302 West 12th Street, NYC 10014 is the leading expert on the assassination (the conspirators excepted). She has written a published index of the 26 volumes. You will see an example of her book-reviewing abilities in the June issue of The Minority of One. Waste no time, Dave, get her to do your review. I am sending a carbon copy of the letter to her so she will be forewarned.

Love,
