

Phone call from Vince Salandri

Thurs. pm: 6/30/66 7:30pm

Wildly excited re: -

① Interview to Arden Spector yielded unbelievable results - 4 hours of tape - invaluable material - now, not sure if a crook or just plain ignorant & stupid

② Visit Arden's very rewarding  
Now certain Gen. C. hit from 292  
Also certain real umbrella on scene  
Also "Man in Cape was not  
exploding, had "Gadget" in  
his hands.

③ Cook, very unimpressed - meeting him  
solely to educate him, make sure  
does not make + + damaging statements

Will discuss Wensley some other time
