Dear Sylvia,

Today my competitor, M.S.A., was kind enough to forward Oswald and the State Department. In my opinion this article is a five year thrust forward of the research into more fruitful channels. I am very proud of you. That Arnoni has luck! Here he is serving as a conduit for history by virtue of having the good fortune of knowing you.

Liberation is publishing my tiny article which demands the production of the Zapruder motion picture films.

I will forward a copy of the tape of the T.V. program just as soon as possible. It represents my first ragged and crude effort at publicly suggesting why the assassination and who did it.

Sylvia, thank you again for showing us the way.

Love,
